EXPERIENCE

Pegasystems — *Product Designer*

May 2026 - Present | Waltham, MA

- Drove 5+ platform enhancements spanning knowledge management, dynamic widgets, forms, and data selection, evolving core patterns.
- Led icon parity initiative using Figma Agent and skills, auditing 700+ icons and creating 301 assets to expand the design system.
- Developed Constellation theme.json framework by translating Infinity Studio visual patterns, tokens, and component styling into a scalable enterprise theming solution.

Todd Agriscience — *Product Designer*

September 2025 - March 2026 | Remote

- Owned end-to-end product design for onboarding and core platform at a pre-seed agricultural startup ($40M valuation cap), serving 10+ farms, USDA, and Whole Foods partners.
- Established design operations and foundations, building component libraries, workflows, and documentation that improved consistency, accelerated hand off, and increased team velocity.
- Translated complex AI-driven analytics into workflows for farm operator performance tracking and decision-making.

Schneider Electric — *Product Designer Intern*

June 2025 - August 2025 | Boston, MA

- Redesigned Schneider's first global B2C web experience, reducing product discovery click depth by 33% and improving conversion.
- Benchmarked experience against 5+ industry competitors, synthesizing heuristic audits and heatmap data into design recommendations shaping product roadmap.
- Designed accessible UI components with Quartz system meeting WCAG AA compliance standards.

Universal Education Initiative — *Visual & Content Designer*

January 2023 - August 2025 | Worcester, MA

- Designed and launched a bilingual platform in partnership with Venezuelan and American embassy partners, expanding STEM education access to 38 students.
- Produced multimedia content supporting UNESCO education equity goals.

EDUCATION

Worcester Polytechnic Institute

B.S. Computer Science

SKILLS

Design

Design Systems · Interaction Design · Prototyping · Accessibility

Code

HTML · CSS · Javascript · Typescript · Git · React.js · Next.js · Claude · Cursor ·

Research

Usability Testing · User Interview · User Survey · Heuristic Evaluation · Statistical Analysis

Design Tools

Figma · Adobe Creative Suite · Microsoft Suite · Framer · Notion · Builder.io · Wordpress

PROJECTS

WPI Research Data Platform

Designed and developed a web app for 1,200+ students in 50+ global research sites, leading iterative user testing within Agile cycles and system integration into WPI.

Mass General Brigham Kiosk

Spearheaded design and frontend implementation of a hospital wayfinding system (100+ nodes, 5 modules) while coordinating an 11-person Agile team.
